Replacing a larger tractor rim?
Bring us the equipment information, existing wheel measurements and photos so our team can help verify the complete fitment.

THE RIGHT WHEEL. THE RIGHT FIT.

From agricultural implements to skid loaders and tractors, Sedam Tire carries a selection of replacement wheels for demanding applications.

Our team can help you compare:

- Wheel size
- Mounting configuration
- Backspacing
- Equipment application
- Current availability

Not sure what fits?

Send us a photo of your existing wheel, your equipment information and tire size. We'll help you identify the right option.
